	<p>Students must have an E-Mail account and access to a computer with Windows 98 or higher and Office 2000. This software may be obtained at the TVI Bookstore at a discounted price. All work must be done in Microsoft Word.</p> <p>You must keep in contact with the instructor by completing assignments as per the syllabus, taking quizzes, and replying to discussion postings as scheduled.</p>
Online Information and time commitment:	<p>Distance Learning students must be self-motivated to achieve their goals on time. I can't stress this enough! Take the student readiness quiz at: http://planet.cnm.edu/distancelearn/measuring_student_readiness.htm to be sure of your abilities to succeed as a distance learning student.</p> <p>Many students think distance learning courses are easier and then find out that the opposite is true. You will probably need to spend as much or <i>more</i> time doing your reading, testing and assignments as you would spend driving to and from campus and sitting in class (average: 3-5 hours a week). I recommend scheduling study-time into your week (like you would do with a class) and making sure that you stick to the schedule. It's easy to get behind and almost impossible to catch up. You will be turning in something fairly substantial and/or taking a quiz every single week.</p>
